

● a A discrete, reference-relative bank

Z · competing sound

TMR: +12 → -12 dB

F0 eligibility → select stored recordings

X/Y: normalized distances. Gray cloud: illustrative masker.

● b Speech structure at fixed F0

kHz

— Harmonic

— Aperiodic

- - - Formants

F0 = 145 Hz · harmonic spacing preserved

Procedural structure, not an STFT or measured MI output.

● c Timing redistributes segments and pauses

Reference

Altered timing

Same event order and total span; local timing changes.
